Donation Alert

Tech4kids, has just made a meaningful contribution to the Grants Grind Foundation. We are proud to announce that we have donated four laptops to support their incredible work in empowering underprivileged children through education and technology.

Tech4Kids is grateful to have been able to donate 5 laptops to the Abused Adult Resource Center in Bismarck. Toni Haider successfully delivered them and has been an outstanding volunteer and advocate for Tech4kids.

Tech4kids generously donated five laptops to the social services program of the Williston school district. The laptops will facilitate improved communication, research, and educational opportunities, ultimately contributing to the advancement of the academic environment.
